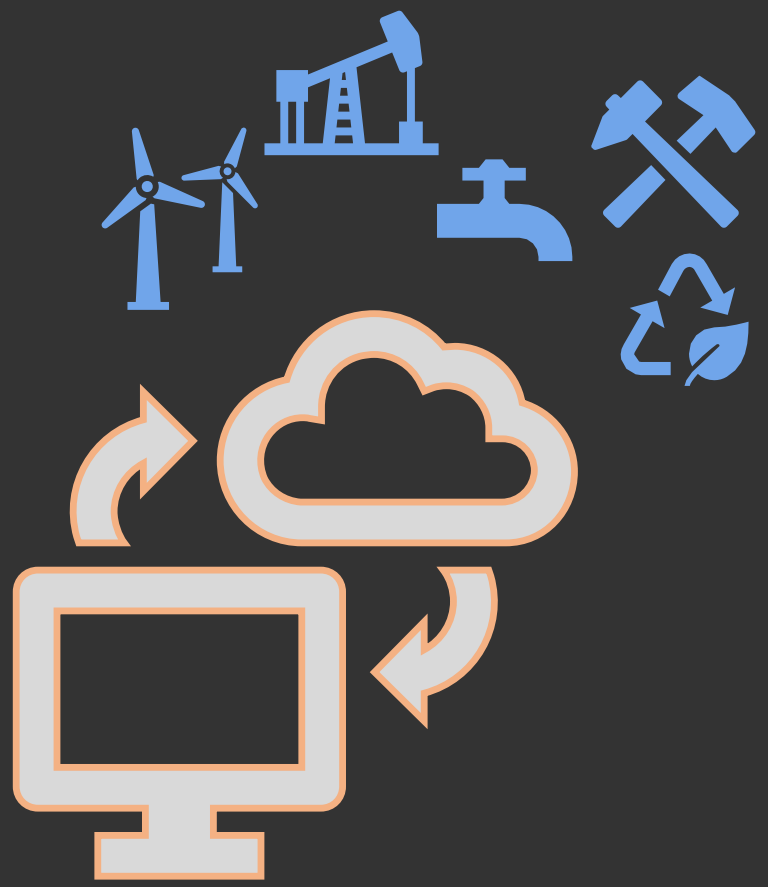
Cloud-Native SCADA as a Service

Who are we?

- Michael Ligrani, CEO & Co-founder
- We started as a boots-on-the-ground SCADA Firm.
- Team with a combined 180+ years in the SCADA Industry.

What is SCADA?



Supervisory Control and Data Acquisition

- Mission Critical Remote-Control, Data Collection, & Alarming
- Very established in Oil & Gas, Mining, Power Distribution, Water Treatment, Surface Water Control, etc.
- Importance
  - ESG, Collection Source of Most Production Data, Daily Control Interface

The Problem

Legacy Enterprise SCADA :

- Complex and High TCO
- Doesn't Scale Easily
- Doesn't Run Well on the Cloud
- Doesn't Provide Easy Data Access
- Isn't Secure
- Doesn't Adapt

What type of business?

Forward-Looking Businesses Always Win

Or

What type of business?

Or

What type of business?

prime video

AMC Theatres lost $4.6B in 2020 because of Covid– WSJ

Good news is that O&G doesn't go through Up and Down cycles!

How are we different?

Enterprise Cloud-Native SaaS SCADA

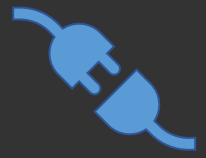
Accessible Standardized Data Model

Much Better Performance @ Lower TCO

Futureproof, Scalable, Adaptable, & Secure

How are we different?

Enterprise Cloud-Native SaaS SCADA



Easy Third-Party Integrations

Custom SCADA Logic Code

ML Rod Pump Optimization

Ask?

- Closing & Oversubscribed – Series A Round
- Future Raise of $3M -$7M

Thank you
